

MACH Series

Non-Electric, High Performance Water Softeners

The Kinetico Mach line of water softeners for fast, powerful and efficient performance.

Kinetico's Mach Series Water Softeners offer you high flow rates throughout your house, savings on regenerant and water, and installation flexibility.

There's nothing quite like knowing the water in your home is of the best quality. With clean, soft water, you know you're saving money on soaps and cleaning products. Your skin and hair are cleaner and softer. Your laundry comes out brighter, and you never have to worry about battling soap scum or spotted fixtures.

It's also nice to know that your water treatment system is of the best quality too. And it is if you have a Kinetico Water Softener.

Enjoy higher flow rates.

Soft water is great for skin and hair.

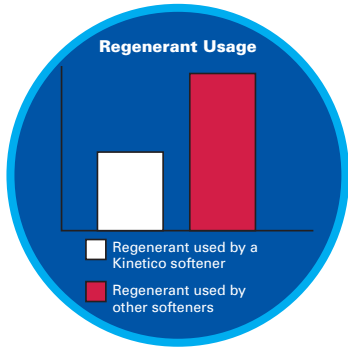

With soft water, cleaning is easier, and you get better results.

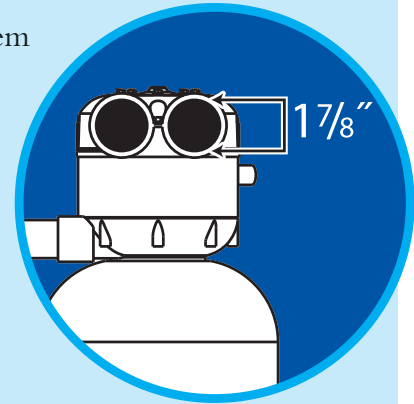

Soft water saves you money on soaps and cleaning supplies.

What else will you get with a Kinetico Water Softener?

High Flow Rates You'll enjoy some of the highest system flow rates in the industry with up to two times the water production. Kinetico Mach Series Softeners provide you with a good supply of clean, soft water, so wash your laundry, shower, run the dishwasher, all at the same time. Kinetico systems provide the high flow rates required by today's demanding households.

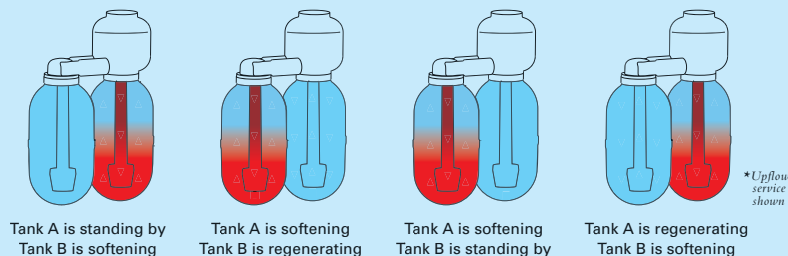

Larger Porting Size Eliminates Plumbing Restrictions 1 7/8" inlet/outlet openings allow quick and easy connection to plumbing up to 1.5".

Greater Efficiency Kinetico Mach systems are even more environmentally friendly – up to 24 percent more water efficient than standard Kinetico models and up to 75 percent more salt efficient than competitors' models.

Non-Electric Operation There's nothing to plug in, no buttons to push, timers to set and reset, or adjustments to make. There won't be an increase in your electric bill. And you won't have any problems associated with electric components or power outages.

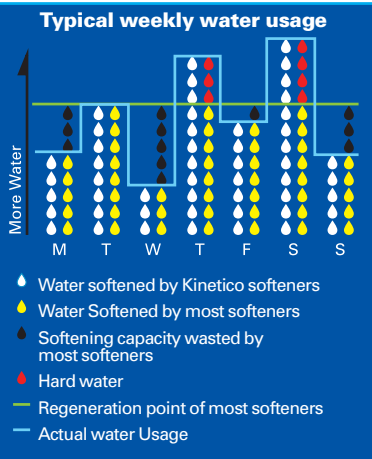

Demand Operation Kinetico systems operate only when they need to saving you water, regenerant, time and money. Unnecessary regenerations, arbitrary settings and hard water breakthrough are also eliminated.

Twin Tank Design Soft water is available 24 hours a day, seven days a week. Service keeps switching from tank to tank, so one tank will always be ready to soften your water, no matter how much water you use in a day. Your system will be able to clean itself with clean, soft water too. And that keeps it operating at top capacity.

Iron Removal In addition to softening water, Kinetico water softeners can remove soluble iron* from water.

Outstanding Warranty Coverage Compare Kinetico's warranty with other water treatment products; you won't find a more solid warranty in the industry. You'll have peace of mind knowing Kinetico stands behind its products.

Soft water makes appliances last longer and work better.

*Iron removal capabilities are dependent on the type and concentration of iron as well as your water's other conditions

Kinetico offers a complete line of water treatment products for total water management. Call your authorized Kinetico dealer to find out how Kinetico products can solve all your water concerns.

Your water must be tested by a professional to determine which Kinetico product is best suited for your water conditions. Consult your authorized Kinetico dealer for a water analysis and product recommendation.
